

Forestland Damage Assessment & Recovery for R.I. Municipalities

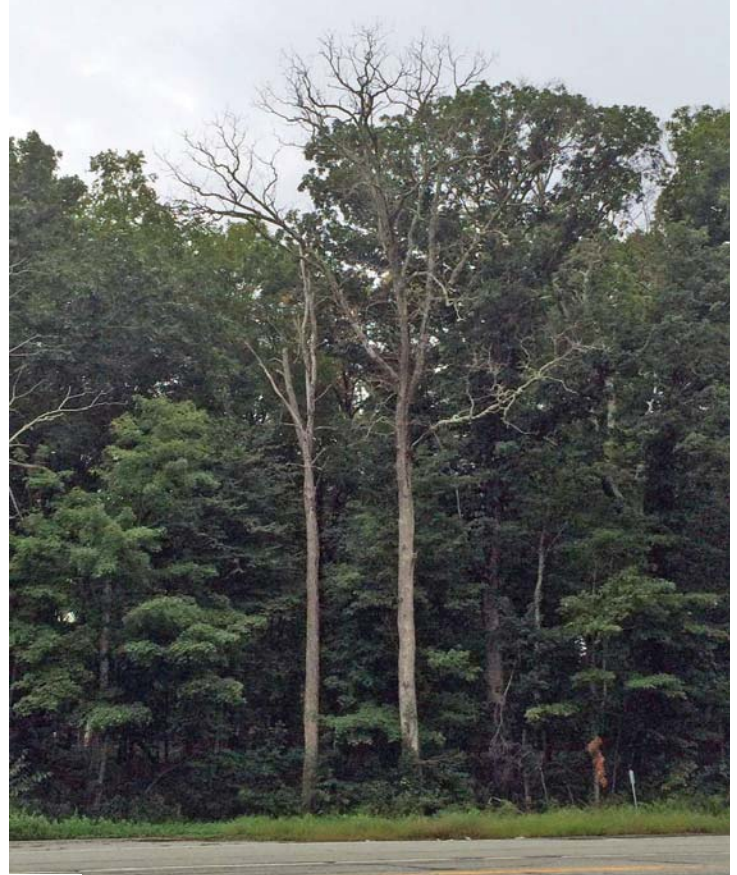

Wednesday, November 14, 2018

- Time: 9:00 a.m. - 12:30 p.m.
- Place: Coventry Town Hall Annex Building Auditorium at 1675 Flat River Road, Coventry RI
- Cost: Free

DESCRIPTION:

Rhode Island has seen a massive defoliation of oaks across the state as well as finding recent evidence of the Emerald Ash Borer. The standing dead trees in our cities and towns pose numerous hazards along our roadways. In this day-long workshop we will discuss the hazards, roles and responsibilities, and state laws as well as how to work with National Grid for assistance with the hazard tree removal program. Resource needs will also be discussed.

Sponsored by:

nationalgrid
